PERFORMANCE WITH THE
INTERNATIONAL® CITYSTAR™**

TOP 10 REASONS TO BUY A CITYSTAR™

TOP 10 REASONS TO BUY AN INTERNATIONAL® CITYSTAR™

1. BEST-IN-CLASS V6 ENGINE STANDARD HORSEPOWER AND TORQUE

The MaxxForce™ 5 features 200 HP and 440 lbs-ft of torque, delivering optimal performance and responsiveness for great drivability.

2. OUTSTANDING MANEUVERABILITY

The 53 degree wheel cut on the International® CityStar™ provides a tighter turn radius making it easy to maneuver through heavy traffic, sharp turns, tight city streets and narrow loading docks.

3. BEST-IN-CLASS PAYLOAD CAPACITY

More payload capacity than the leading competitors provides the ability to deliver bigger payloads and maximize profit on every trip.

4. STANDARD AUTOMATIC TRANSMISSION FEATURING TOW/HAUL MODE

The Tow/Haul switch located on the shifter not only makes the CityStar easy to operate but the tow/haul mode acts as a secondary braking system, providing added braking power on steep downhill grades. Using tow/haul mode can decrease the wear and tear on the brakes, leading to lower maintenance costs.

5. REDUCED PREVENTIVE MAINTENANCE COSTS

Extended and synchronized preventive maintenance service intervals mean less maintenance costs over the life of the vehicle.

6. STANDARD 3-YEAR/150,000 MILE LIMITED CHASSIS WARRANTY

International gives a 3-year/150,000 limited standard chassis warranty which will cover the repair of a warrantable failure in the first 3 years or 150,000 miles (whichever comes first).

7. INDUSTRY-LEADING NORTH AMERICAN SUPPORT

With nearly 900 International dealer locations in the United States, Canada and Mexico, a dealer is conveniently located to service all your transportation needs.

8. WIDE TRACK AXLES FOR GREATER ROLL STABILITY

The wide track axles and frame lower the center of gravity providing greater stability and enhanced handling.

9. OVER 1,000 PAINT COLOR OPTIONS

With over 1,000 different paint colors to choose from, International offers the flexibility to get a factory paint job that matches your company's colors. This is less costly than local repainting, which can cost \$1,500 or more.

10. BREAK-AWAY MIRRORS

The powder-coated mirrors will absorb shock when impacted, reducing potential repair costs. In addition, the cab mounting of the mirrors results in less vibration, and the forward position of the mirrors improves visibility.

**YOUR WORK TAKES YOU INTO TIGHT SPOTS.
YOUR TRUCK GETS YOU OUT OF THEM.**
